

Cleaning Companies who care about safety use SiteConnect.

SiteConnect provides a clever risk communication solution that helps cleaners who face a variety of both physical and environmental hazards track their workforces, and meet the most important requirements of the 2015 Health & Safety at Work Act; to gain specific acknowledgement of these to help protect their workers.

Smart use of Mobile App technology and GeoFencing tells you where your cleaners are, for how long and when they left.

SiteConnect tracks cleaners with time and date stamped reporting of site entry and exits and an ability to 'see' a cleaner on your property via the administrator's portal – particularly useful for larger properties.

Managers give cleaners SiteConnect free to keep them safe, and to gain essential acknowledgements of risks and hazards.

SiteConnect helps you manage hazardous substances on site with Safety Data Sheets.
