

## COVID-19 has necessitated the introduction of new Health & Safety protocols required in our business, property and work environments.

As lockdown alert level 4 ends and alert level 3 commences, the construction industry is allowed to re-open if it complies with the new [Government Regulations](#).

SiteSoft has launched a new SiteConnect COVID-19 Healthy Site module which ensures compliance with these new government regulations and keeps your staff safe while on-site.

This is FREE to existing customers and is available right now for new customers.

SiteConnect's COVID-19 Healthy Site module is included in our comprehensive health & safety site management application at no extra cost, supporting you to make your workplace a safer and more compliant environment for workers and visitors.

Essential elements include:

All users are required to complete a health declaration after their first login since the release of this feature.

Site management are notified as soon as users sign into sites using GPS or QR Codes. These notifications can be toggled on or off by site account administrators.

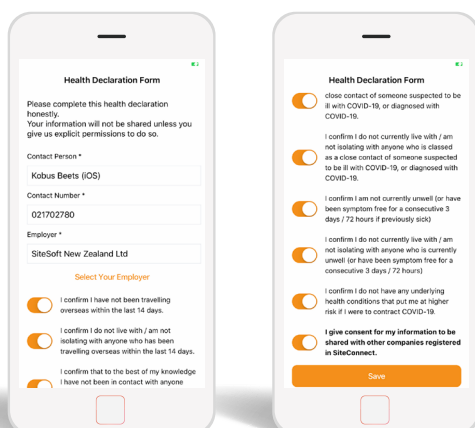

A complete record of arrivals and departures are kept along with the sign-in and sign-out declarations for each site entry and exit.

Site sign-in and sign-out declarations must be completed on a regular basis. These declarations may vary from site-to-site, but will contain the same health and safety requirements.

SiteConnect enables simple self management of our COVID-19 feature. Site account administrators can customize the sign-in and sign-out declarations as needed for their organizations.

# IMPROVE SAFETY FOR SITE VISITORS WITH SITECONNECT

# SITECONNECT KEY FEATURES

## SITE MANAGEMENT

### Site Management

Set-up and store vital information about your sites.

### Geo-Fencing

Create a virtual fence around your site for automated signing in and out of site.
