

Commercial construction companies upgrade to SiteConnect to help manage their Health & Safety compliance.

SiteConnect helps Directors of commercial construction companies significantly reduce their risk of personal liability by providing project managers with the digital tools they need to accurately manage, report on and communicate Health & Safety across their concurrent sites.

SiteConnect tracks contractors with time and date stamped reporting of site entry and exits and an ability to 'see' a contractor on your site via the administrator's portal – particularly useful for larger sites.

SSSP Management streamlines once time consuming processes, meaning you have the most important documents and procedures with you in your pocket ready to action, anytime anywhere.

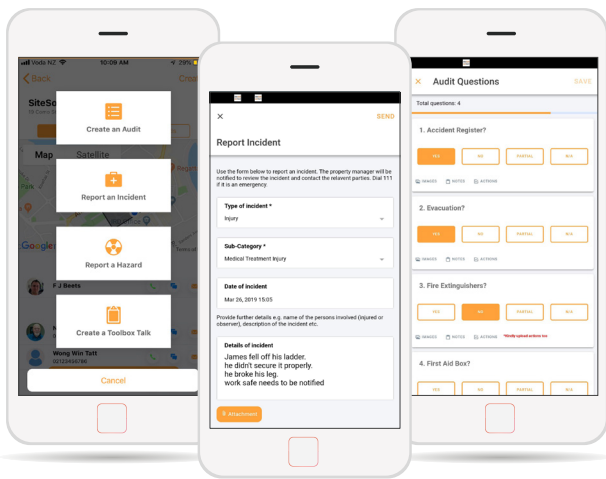

Extensive pre-qualification, allow access to those that are actually qualified to be on your site. Manage your contractors and their site access.

Project managers give contractors SiteConnect free to keep them safe, and to gain essential acknowledgements of risks and hazards.

Our powerful toolkit covers all areas of Site Management and Health & Safety to ensure we are your one stop shop.
